Camden Park Environmental Education Centre

Risk Management Analysis 2021

Farms, Food & Fibre

Activity	Hazard/Risk Identification	Likelihood	Severity	Risk Level	Elimination or Control Measures
Centre grounds and	Students struck by vehicles in the compound	5	5	5	Display caution signs
paddocks	Snake bite	4	3	4	Communicate with DPI staff to minimise vehicle entry while students are on
	Trips/falls				site.
					Ensure 1st Aid kit has adequate number of pressure bandages. Ist aid
					qualified person on site at all times. Use recently slashed areas and avoid
					long grass
Sheep Handling	Students knocked over by running sheep	6	5	5	Students coached in sheep handling techniques, their own behaviour,
	Students contract zoonotic infection from sheep	6	5	5	and supervised constantly
	Students affected by stinging weeds.	5	5	5	Students wash hands before eating after handling animals
					Slash paddocks to reduce risk. Abandon activity where such plants are in
					obviously high numbers. Warn students of existence.
Egg	Trip hazard	6	6	5	Trip hazards dealt with using HRPs as discovered. Students encouraged to watch
	Allergic reaction to egg/ egg shell	6	3	6	out for pen framework when stepping through doorway.
a a lla ationa / Cara bio a /	33. 33				Details of student allergies provided by visiting schools prior to arrival, and
collecting/Cooking/					affected student movement managed accordingly. Students distanced from cooking appliances
					Lemons cut by CPEEC staff
Lemonade					
			_		
Wagon ride	Collision	6	6	5	Internal roads and suitable paddocks to be included in route. Weather conditions appraised as necessary and route adjusted accordingly. Property speed limits
	Falling	5	5	5	adhered to. Tractor safety features in operation to increase visibility to other
					vehicles. Strict passenger protocol to be observed. CPEEC staff member or
					visiting teacher to accompany students on wagon.
Attendance/COVID	Exposure to viruses	5	4	6	All activities are conducted in accordance with DoE COVID safe guidelines.
					Measures include, but not limited to –
					 Reduction to surplus visiting staff and student group sizes
Safe Practices					 Single school visits
					Avoidance of mixing cohorts
					Sanitising stations at every activity
					Activities modified to adhere to guidelines or abandoned if not
					considered safe Maintenance of social distancing requirements among adults
					 Maintenance of social distancing requirements among adults Activities conducted outdoors in open spaces
					Clean amenities with soap and sanitizer readily available
					Clear Dep of Health signage around the grounds and amenities
			1	1	sical pep of fredicti signage around the grounds and amendes

How sovieus sould the injury he?	How likely is it to be that serious					
How serious could the injury be?						
Death or permanent injury	1	1	2	3		
Long term illness or injury	1	2	3	4		

Medical attention and several days off		3	4	5				
First aid needed 3		4	5	6				
Severity – is how seriously a person could be harmed		Likelihood – is an estimate of how probable it is for the hazard to cause harm						
Legend (as a guide only)								
1 Extreme risk; action to rectify the hazard should commence immediately		2 High risk; action to rectify the hazard should occur within 48 hours						
3 Medium risk; action to rectify hazard should occur within 7 days		4 Low risk; action to rectify hazard should occur within 14 days						
5 Minimal risk; action to rectify hazard should o	ccur within 21 days	6 Minimal risk; action to rectify hazard should occur within 21 days
