

Activity	Hazard/Risk Identification	Likelihood	Severity	Risk Level	Elimination or Control Measures
Sheep Handling	Students knocked over by running sheep Students contract zoonotic infection from sheep Students affected by stinging weeds.	6 6 5	5 5 5	5 5 5	Students coached in sheep handling techniques, their own behaviour, and supervised constantly Students wash hands before eating after handling animals  Slash paddocks to reduce risk. Abandon activity where such plants are in obviously high numbers. Warn students of existence.
Centre grounds and paddocks	Students struck by vehicles in the compound Snake bite Trips/falls	5 4	5 3	5 4	Communicate with DPI staff to minimise vehicle entry while students are on site. Ensure 1st Aid kit has adequate number of pressure bandages. 1st aid qualified person on site at all times. Use recently slashed areas and avoid long grass
Pitching tents	Hand injury from hammers	4	3	4	Students warned of hazard and under close supervision
Using Stockwhips	Contact of whip with eyes or body	5	5	5	Demonstration provided Safety glasses used Students not in close proximity to each other Short whips used to minimize force
Egg collecting	Trip hazard Allergic reaction to egg shell	6	6	5	Trip hazards dealt with using HRPs as discovered. Students encouraged to watch out for pen framework when stepping through doorway. Details of student allergies provided by visiting schools prior to arrival, and affected student movement managed accordingly.
Wagon ride	Collision Falling	6 5	6 5	5 5	Internal roads and suitable paddocks to be included in route. Weather conditions appraised as necessary and route adjusted accordingly. Property speed limits adhered to. Tractor safety features in operation to increase visibility to other vehicles. Strict passenger protocol to be observed. CPEEC staff member or visiting teacher to accompany students on wagon.
Boomerang throwing	Impacted by boomerang	6	5	6	Procedure of throwing Boomerangs carefully controlled by CPEEC staff. Boomerangs only thrown in the one direction at the indication of CPEEC staff member conducting activity. No students to enter dangerous areas prior to CPEEC indicating it is safe to retrieve boomerangs.
Attendance/COVID  Safe Practices	Exposure to viruses	5	4	6	All activities are conducted in accordance with DoE COVID safe guidelines. Measures include, but not limited to – <ul style="list-style-type: none"> <li>Reduction to surplus visiting staff and student group sizes</li> <li>Single school visits</li> <li>Avoidance of mixing cohorts</li> <li>Sanitising stations at every activity</li> <li>Activities modified to adhere to guidelines or abandoned if not considered safe</li> <li>Maintenance of social distancing requirements among adults</li> <li>Activities conducted outdoors in open spaces</li> <li>Clean amenities with soap and sanitizer readily available</li> <li>Clear Dep of Health signage around the grounds and amenities</li> </ul>

<i>How serious could the injury be?</i>	<i>How likely is it to be that serious</i>			
Death or permanent injury	1	1	2	3
Long term illness or injury	1	2	3	4
Medical attention and several days off	2	3	4	5
First aid needed	3	4	5	6
<b>Severity</b> – is how seriously a person could be harmed		<b>Likelihood</b> – is an estimate of how probable it is for the hazard to cause harm		
<b>Legend (as a guide only)</b>				
1 Extreme risk; action to rectify the hazard should commence immediately		2 High risk; action to rectify the hazard should occur within 48 hours		
3 Medium risk; action to rectify hazard should occur within 7 days		4 Low risk; action to rectify hazard should occur within 14 days		
5 Minimal risk; action to rectify hazard should occur within 21 days		6 Minimal risk; action to rectify hazard should occur within 21 days
